

Sustaining and Restoring the Health of Washington's Working Forestlands Creating an Ecosystem Services Marketplace

Location

University of Washington Botanic Gardens • Center for Urban Horticulture
3501 NE 41st Street • Seattle, Washington 98105 • (206) 221-2500
[Website & Map](#)

Monday, November 23, 2009

8:30 Coffee and Bagels | [Center for Urban Horticulture](#) • NHS Hall

9:30 Convene | [Center for Urban Horticulture](#) • NHS Hall

Welcome & Introductions

[Brian Boyle](#), *Forum Leader*, Northwest Environmental Forum

[Bruce Bare](#), *Professor & Dean Emeritus*, University of Washington School of Forest Resources

[Peter Goldmark](#), *Commissioner of Public Lands*, Washington State Department of Natural Resources

[Bob Rose](#), *Forum Consultant*

9:50 2008 Forum Findings – What the 2009 Legislature did and did not do, and likely 2010 Legislative responses – [Brian Boyle](#)

Reference Document: [Major Findings and Recommendations of the 2008 Forum](#)

10:30 Break

10:45 Eastside Forest Restoration – Results of the October 28-29, 2009, meeting in Spokane

Presenters from the Forum

– Findings and Action Items – [Bob Rose](#) with participants from the Eastside Forest Health Forum

– Anchor Forests – A possible framework for coordination of forest management - [Gary Morishima](#), Quinault Management Center

12:15 Lunch, with report on “What Landowners Want” survey

Policy implications of what motivates landowners to keep their land in working forests
[Sergey Rabotyagov](#), *Assistant Professor*, University of Washington School of Forest Resources
[Steve Stinson](#), *Executive Director*, Family Forest Foundation

1:00 ECOSEL – Update on the analytical modeling tool that aids working forest landowners to sell ecosystem services
[Sándor Tóth](#), *Assistant Professor of Natural Resource Informatics*, University of Washington School of Forest Resources

1:15 Case Studies from Oregon and Washington - How can we value environmental losses if we don't value ecosystem services?

The Deschutes National Forest planning framework –
[Bob Deal](#), *Research Forester and Science Team Leader, Ecosystem Services*, USDA Forest Service Pacific Northwest Research Station

The Willamette Partnership – Pioneering a multiple Ecosystem Services Market -
[Mac Martin](#), *Water Resource Analyst*, Clean Water Services/The Willamette Partnership

Modeling Land Price Feedbacks and Strategic Land Retention on Lopez Island
[Sándor Tóth](#)

- What can be sold or traded in a forest ecosystem services market? Who buys and who sells?
- What is a multiple ecosystem market place?
- Is it more advantageous to buy fewer and smaller parcels that are under high risk of development or larger ones that are further away from population centers?

1:45 Questions and Commentary

2:30 Break

2:45 Breakout Groups - to discuss how
a) to advance the Eastside Forum conclusions
b) Ecosystem Services Markets can be addressed within the concept of the 2008 Forum Task Force proposal for the 2010 Washington Legislature and other interests

4:00 Summarize and distill session strategy; assign follow-up lead roles and responsibilities for moving proposals forward

5:00 Reception | [Center for Urban Horticulture](#) • [Merrill Hall Commons](#)

6:00 Adjourn
